Light Adlington Christmas 2021
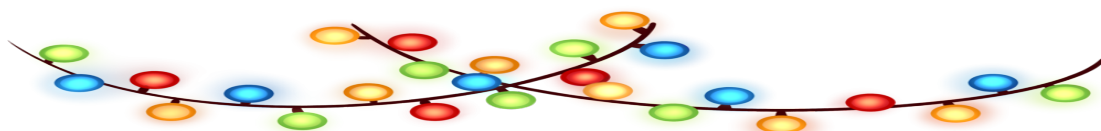

We at Adlington Town Council want to help make this Christmas a special one.

We have canvassed our local businesses to take part in "Light Adlington" and have a lit tree erected on their shop or business frontage to create a stunning Christmas display.

The Town Council has shared the cost of this initiative and over 40 businesses have agreed to take part, the Christmas trees will start to appear on their premises now.

Calling All Residents!

We are now asking all residents to join us in December and help us to "Light Adlington" on every road and street in the village by lighting up a door or window of your house that faces the front of your property for all your neighbours and friends to see.

Be as creative as you can … Unite forces with your neighbours and create a theme or be as individual as you like… we hope you will all take part.
